FLOWSTER

# FLOWSTER WORKFLOW SETS

## RELIEF THROUGH READY-MADE SOLUTIONS

### WORKFLOW SET HR-IT

Solution developed especially for HR and IT departments and their employees. Automate the most common tasks that previously had to be carried out manually with a lot of effort. HR and IT managers thus get the necessary freedom to devote themselves to more important work again.

FOR YOUR HR AND IT DEPARTMENT

LEARN MORE

### WORKFLOW SET M365

An automation solution primarily developed for the management of Microsoft® 365. With the workflow set you can automate the most common tasks related to user administration and licence management, permissions and mailboxes.

FOR EASY ADMINISTRATION

LEARN MORE

### WORKFLOW SET AD-AUDIT

An automation solution that provides you all the relevant information you need about your AD infrastructure and objects. You can identify hidden contexts, permissions and errors. This enables you to mitigate security risks and prove IT compliance.

FOR ACTIVE DIRECTORY

LEARN MORE

### WORKFLOW SET REMOTE ACCESS

The Remote Access Management workflow set prevents users as administrators from accessing IT remotely from outside the company and making changes. It meets BSI and ISO requirements and ensures that changes can only be made by authorised persons.

FOR MOBILE WORKPLACES
